

## QUALITY AND EVM POLICY OF COMPANY TART, S.R.O.

- All company employees have to keep in mind the satisfaction of all customers and all activities subject to this objective. Only customer satisfaction entitles our company to the survival and prosperity in the market competition. In particular a high level of communication with the customer will be required from the sales, purchasing and marketing start.
- Company executives will consistently require conscientious performance of their duties by all employees in the company. Monitoring the cost of poor quality work will be consistently shown in the combination compensation.
- Company executives are committed to provide the employees with equipment such as to meet development objectives of the company.
- All staff will be trained for their activities, because only well-trained staff can give good performance.
- One of the implements to achieve strategic objectives is a system of quality management and EVM. Employees will be adequately held to the position required of their knowledge.
- Monitoring of environmental protection in the sale, manufacture and use of products supplied by us is a matter of fact.
